## Vision America

IFCA International Church Planting

### Please Pray:

- For the continued life changing work of God in our lives and the lives of MBC saints.
- For the salvation of precious souls through our ministry at MBC and our place of employment.
- Praise God for the provision of help from Frontier grads, ..Josh & Rebecca Shetler!

Moscow ID, a community of about 25,000 and the home of the University of Idaho, lies about eight miles east of Pullman WA and Washington State University. Being a college town, Moscow is far more liberal than the rest of Idaho. While the university is the dominant employer, the city also serves as an agricultural and commercial hub for the Palouse region.

The community of Moscow and the surrounding region is a vastly under-reached mission field in great need of solid Bible churches.

NICE targeted Moscow for a church plant as early as 1990 and the need is far greater now! According to our research, only about 20% of the residents of Moscow have any church connection at all. Each evangelical church there must reach over 4000 people, just to approach full outreach. Few of

those churches are committed to the clear teaching and preaching of the Bible, and, of course, there are cults and churches that have departed the faith, twist truth and deceive the spiritually hungry.

Under the auspices of NICE we conducted a canvass of around

1500 Moscow residences in preparation for the launch of this church. We began having regular services in January 2010 in Shorts Funeral Chapel. (Folks are dying to go there!). Our current attendance is as high as 24 people.
